SUMMARY

Aspiring Supply Chain Systems and Operations Professional pursuing a Bachelor of Engineering in Computer Science (IoT Specialization). Strong foundation in data analytics, programming, and industrial systems with a growing interest in supply chain management, production planning, inventory management, logistics, and digital transformation. Seeking opportunities to apply analytical and technical skills to improve operational efficiency and supply chain performance in manufacturing and industrial environments.

SKILLS

- **Supply Chain:** Logistics, Inventory Management, Procurement, Production Planning, Demand Forecasting
- **Supply Chain Strategy:** Sourcing, Operations, Planning, Distribution, Process Optimization
- **Data Analytics:** Excel, Python, Data Analysis, Reporting
- **Programming:** Python, Java
- **Industrial Systems:** Industrial IoT, Automation Systems, Sensor Integration
- **Currently Learning:** SQL, Power BI, SAP MM, SAP PP, Supply Chain Analytics

PROJECTS

Smart Building Automation and Resource Optimization System

- Developed an IoT-based system using Arduino Uno and ESP8266 for real-time occupancy detection
- Implemented ultrasonic sensing with hysteresis logic to reduce false triggers
- Automated lighting and ventilation to improve resource utilization
- Integrated remote monitoring through a centralized dashboard
- Applied data-driven logic for efficient environmental control
- Designed modular architecture separating sensing, control, and communication
- **Tech Stack:** Arduino, ESP8266, Sensors (HC-SR04, DHT11), Blynk

EXPERIENCE

Internship Trainee

Feb 2026 – Mar 2026

Hindustan Aeronautics Limited (HAL), Bengaluru

- Gained exposure to real-world engineering workflows in aerospace and industrial environments
- Observed system integration, production processes, and quality control practices
- Developed understanding of documentation standards, operational efficiency, and industrial workflows

EDUCATION

Bachelor of Engineering (Computer Science - IoT)

2023 – 2027

Cambridge Institute of Technology, Bengaluru

Army Public School, Bengaluru

CERTIFICATIONS

- Supply Chain Management Specialization – Rutgers University
- AI/ML Fundamentals
- Digital Electronics
- Core Programming (Python, Java)

ADDITIONAL INFORMATION

- Completed the Rutgers Supply Chain Management Specialization
- Strong interest in Supply Chain Systems, Manufacturing Operations, and Industrial Analytics
- Passionate about using technology and data to improve operational efficiency
- Actively learning ERP Systems (SAP MM/PP), SQL, and Power BI
